## Conventional Unrestricted Units

### General Information:

- **Examples of this type of unit:** Catering trucks, mobile taquerias, snow cone trailers, barbecue trailers, (vehicle or wheel-mounted vehicle that portions prepares or handles any open foods).
- May operate at one location or multiple locations, must submit to the health department list of all locations if operating for more than 1 hour; any relocations must be submitted to the department 48 hours before relocating.
- May also have a route, stopping at several businesses or construction sites. **If operating at site for more than 1 hour, a notarized property approval letter and approved restroom availability letter is required.**
- **All conventional unrestricted mobile food units must be taken to an approved commissary for the performance of all servicing operations within the 24-hour period preceding food operations on each day that they operate.**
- This type of unit requires potable and waste-water systems, including a utensil washing sink and separate hand sink.
- Determine whether plans are needed
  - New unit ⇒ YES
  - Unit approved in a city other than Houston or by a county health department ⇒ YES
  - Unit approved in Houston under a previous owner ⇒ NO, unless you remodel
  - Remodeled unit ⇒ YES
- Submit plans to Houston Health Department, Environmental Permit Office, 8000 N Stadium Dr., 1<sup>st</sup> floor – pay plan review fee.
- If approved, construct unit according to the approved plans
- You will be notified to take unit to the Environmental Inspection Center, 7427 Park Place for inspection after plans are approved.
- Medallion is obtained upon payment of fees at time unit is inspected.

**PLAN CHECK- LIST FOR CONVENTIONAL UNRESTRICTED  
MOBILE FOOD UNITS (07-U)**

**The following deficiencies were noted on the attached plans and specifications:**

	Two sets of properly prepared plans (no larger than 11"x17") and specifications are required. Plans should be drawn to scale and must include a floor plan, plumbing diagram, finish schedule, a complete equipment lay-out with full details (including cold-hold units), and drawings of the exterior of the unit which include all items required to be shown by this document. Plans must be clear, have legible print, and not present conflicting information about the unit. A completed Menu Disclosure form must be submitted with the plans for approval.
	Plans as submitted are not of sufficient detail to complete the review process.
	Include a finish schedule for the floors, walls and ceilings including material, finish and color.
	Provide information on material and finish used for food preparation surfaces, counters and cabinets, and type of proposed fixed equipment and facilities.
	All walls and ceilings must be smooth, easily cleanable, non-absorbent, and light in color. Utility lines, service lines, and pipes <b>shall not be unnecessarily exposed</b> (should be enclosed inside of the walls and ceilings). ADD AS NOTE ON PLANS.
	The business name must be permanently affixed on two sides of the unit with lettering no less than 3 inches in height. Indicate business name and owner/operator on plans.
	Provide a diagram of the plumbing system including all tanks, pumps, fixtures and piping. Hot and cold running water under pressure is required.
	Provide a 2 or 3-compartment sink. (a 3-compartment sink is recommended) Each compartment must measure at least 15"x15"x12" (length x width x depth) and shall have rounded internal angles and be free of sharp corners or crevices. Add as a note on plans. *Note*(Units with 2 compartment sinks must use an approved detergent sanitizer when cleaning and sanitizing utensils.)
	Provide a hand sink separate from the 2 or 3 compartment sink.
	Indicate size and type of material used for the water supply piping.
	Provide "P" traps at sink drains. "S" traps are not acceptable.
	The fresh water tank shall be at least 30 gallons. The fresh water tank must be constructed of a food grade material (NSF or equal). The fresh water tank should be located where it can be <b>ACCESSED</b> for measuring and servicing. (no rooftop installations) The fresh water tank must be sloped to an outlet that allows complete drainage of the tank. Show physical location on plans. (If located on the outside of the unit, show the location on the exterior diagram.)
	Show the location of the fresh water inlet on the unit (exterior view). The fresh water inlet must be ¾ inch in diameter or less. The fresh water inlet must be protected from contamination and be of a size and type that will <b>PREVENT</b> its use for any other purpose. The fresh water tank vent, if provided, must terminate in a downward direction and be provided with a protective filter or screened if the termination is in an interior space.
	Show the location of a water pump. The water pump must activate automatically or be equipped with a pressure switch installed in the water supply system. Gravity systems are not acceptable. Air pressurized water systems must include a food grade on board air pump.
	Indicate what material the waste water tank is constructed of. The waste water tank must be at least 15% larger than the fresh water tank. The waste water tank must be permanently installed. The waste water tank must be sloped to drain and must be capable of being completely emptied during servicing.

	The drain outlet must be larger than any other piping in the waste water system. (Show on Exterior Diagram) The waste water tank must be located in an accessible cabinet or on the outside of the unit. (If installed on the outside of the unit, show the location on the exterior diagram.) The waste water tank should be located where it can be <b>ACCESSED</b> for measuring and servicing.
	Provide an atmospheric vent to the outside from the top of the waste water tank. (Show on Exterior Diagram) The atmospheric vent must terminate above sink level.
	Indicate size and type of material used for the waste water drain and vent piping?
	If located within the food preparation area, the fresh water and waste water tanks must be enclosed in an <b>ACCESSIBLE</b> (for servicing or measuring) cabinet or other smooth easily cleanable structure. Show or indicate on plans.
	If located within the food preparation area, the water heater must be enclosed in an <b>ACCESSIBLE</b> cabinet or other smooth easily cleanable structure.
	Indicate how electricity be provided. (generator or plug-in at site) Provide access to electrical outlet connection so that windows & doors are not held/kept open.
	Show lighting with proper shielding (to protect against breakage) on the floor plan.
	A vent hood with removable filters (installed at an angle between 45 degrees and vertical) and mechanical ventilation to the outside is required over any grill, stove, range or fryer. Ventilation must be adequate for the equipment being vented and normally will meet specifications for a Type I, stainless steel commercial vent hood. Vent hood must have a drain and a removable catch pan along the back edge. If the hood roof attachment has an outlet for grease/ liquids, provide a drain pipe and removable, covered catch-pan on the outside of the unit. (Show on Exterior Diagram)
	Any horizontal or difficult to clean space above the vent hood must be closed in.
	All openings to the outside, including serving openings and entrance doors must be screened or kept closed. Screening must be at least 16mesh/inch.
	An insect and rodent proof covered garbage container <b>SHALL BE ATTACHED</b> to exterior the MFU for patron use. It should at least be 20 gallons. (Show on Exterior Diagram.)
	<b>Note: Approval of plans does not constitute approval of the unit. Inspection of the unit is required.</b>

FOOD SERVICE MANAGER CERTIFICATION: Call 832-393-5100 to make a reservation to attend the required class prior to bringing mobile food unit to 7427 Park Place for pre-opening inspection. Provide class date to inspector during check-in. A certified manager must be on duty when engaging in manufacturing, production, preparation, processing, packaging, service of food, make-ready and cleanup activities.

[http://www.houstontx.gov/health/Food/food\\_manager\\_certification\\_class.html](http://www.houstontx.gov/health/Food/food_manager_certification_class.html)

FOOD HANDLER: All employees (that are not certified managers) must complete a food handler training course within 60 days of employment effective September 1, 2016. Links to classroom and on-line food handler training:

Houston, TX 77054

## **SUMMARY OF MOBILE FOOD UNIT SANITATION REQUIREMENTS: Unrestricted Mobile Food Units**

**Medallion:** Medallion must be current and in current owner's name.

**Certified Manager:** Must have a Certified Food Service Manager present at unit at all times of food preparation, service and cleaning. Class: (832) 393-5100  
(present a valid photo ID, such as driver license, along with certification card/ wall certificate also posted in the unit in public view.)

**Food Handler:** All employees must successfully complete food handler training within 60 days of employment. Food handlers trained effective September 1, 2016. (unless all food employees are certified managers).

**New operation location(s):** Notify health department of any new locations **at least 48 hours/2 days before** you start operation at new location. (If unit will operate at new location for more than 1 hour a day, you **must submit a new notarized property letter** and a new approved **restroom letter** for new location to the **Environmental Inspection Center at 7427 Park Place**, or fax the letters to 832-393-5724.

**Property Letter-** must be posted in view of the public. If letter is unavailable, you will be required to close.

**Restroom Letter** – must be posted in view of the public. If restrooms are unavailable while the unit is operating, you will be required to close.

**Signs:** All signs must be attached to and supported only by unit. No signs around unit.

**Mobility:** Must demonstrate mobility/show that you can move the unit at any reasonable time if requested by any police officer or health officer.

**Servicing and Servicing receipts:** Maintain a valid servicing receipt from the commissary verifying that the unit was serviced no longer than 24 hours before starting food operations on that day. Receipts must be kept on unit for a period of one year from date of servicing. Servicing includes – filling the fresh water tanks using a food grade hose; dumping the waste water tank, flushing the water system, disposing of trash/garbage; cleaning ( sweeping/mopping ) the mobile food unit interior and equipment.

## SANITATION

**Single Service Articles:** No washable plates, tableware, cups allowed for food service.

**Hot and Cold Water at each sink:** (Water at utensil sink must be 110° F. minimum and 100 °F. at the hand sink)

**Water Retention:** Repair leaky waste-water tanks immediately. If unit cannot retain waste-water, you will be asked to **close. Release waste water from tank at the commissary only.** Citation will be issued and closure of the unit if waste is improperly disposed.

**Garbage Container:** Must have a covered garbage container **attached** to unit. (20 gallon capacity minimum)

## AREA SURROUNDING UNIT

**Operation Capacity Limited:** All foods must be **stored or displayed in or on unit itself.** (No refrigerators, coolers, other equipment or storage sheds outside unit)

**Dining area:** prohibited within 100 feet of mobile food units.

**Canopies and awnings:** prohibited unless part of unit and attached to, and supported only by, the unit.

**Utility connections:** only quick-connect electrical and telephone services. (**Water, gas, or sewerage** utility connections are **prohibited.**)

**Unit Premises:** No brooms, mops, hoses, containers, boxes or other such items on the ground outside of unit.

## OTHER SANITATION REQUIREMENTS

**Pests:** Eliminate the presence of insects (roaches, flies, ants) and rodents pests (by screens no less than 1/16 mesh to the inch, approved pesticides, rodent/insect-proof unit, doors and windows closed when not in use).

**Food Supplies:** All food preparation must take place **in unit,** (unless prepared in a commercial food processing plant or other inspected food establishment). **A private residence must not be used to prepare or store food** served from unit.

**Food Temperatures:** Keep TCS (time and temperature control for safety) foods at required temperatures of 41° F. or below or 135° F. or above at all times.

**Thaw foods** in refrigerator or in process of cooking and **not on steam table or out on counter.**

**Food Storage:** Foods should be covered. Raw animal products (meats) should be stored in containers below other foods to prevent cross-contamination.

**Cooling TCS Foods: Do not prepare more food than you have the ability to cool properly.** (135°F. to 70°F in 2 hours or less. 70°F to 41°F. or below in 4 hours or less). Make sure your refrigeration units are maintained at 41°F. or below at all times. Cooling procedures include: ice baths, reducing the size portions, shallow pans, quick chilling, etc.

**Hand washing and sanitary/disposable gloves:** Foods which have been cooked or washed ( ready-to-eat) must not be touched with bare hands. **Sanitary gloves must be worn** unless foods are handled by utensils, deli paper, tongs, or other barrier. Hands must be washed each time a new pair of gloves are put on. Hands must be washed for at least 20 seconds in the hand sink only. **DO NOT PLACE ANY ITEMS IN THE HAND WASHING SINK.** The sink must be supplied with soap, disposable towels and trash container, and water at a minimum of 100°F. . Wash hands after any activity that may contaminate the employee's hands ( **AFTER** - handling raw foods, handling unclean equipment, using the toilet, handling trash, coughing/sneezing into the hands, etc.)

**Food Service – Sauces, condiments,** should be served in **individual portions** in disposable containers or in pour-type or **squeeze-type bottles**. No large bowls or small re-usable containers.

**Additional requirements:** The health officer may prohibit the sale of some TCS foods and impose requirements to protect the public's health. Foods and activities not approved include raw foods such as sushi/ceviche; undercooked foods; grinding of TCS foods; specialized food processing.

**Note:** This is a **summary only**. For a complete list of requirements see the Houston Food Ordinance, Chapter 20.

[www.HoustonConsumer.gov](http://www.HoustonConsumer.gov)

## **ADDITIONAL REQUIREMENTS FOR BAR-B-QUE MOBILE FOOD VENDORS**

1. The BBQ pit must be permanently installed inside of the Food Truck or Trailer.  
(It cannot merely be a pit sitting on an open trailer that operates independently or is pulled behind the Food Truck.)
2. The pit area must be completely enclosed by walls, ceiling and floor. If windows are in the pit room/area, they must be screened with 16 mesh/inch screening or kept closed at all times.
3. The smoke stack for the BBQ pit must vent directly to the outside through the ceiling or wall and the opening must be sealed against the entry of pests and the elements.
4. An exhaust fan must be installed in the pit room/area that vents directly to the outside to remove excessive heat and smoke.
5. The walls and ceiling of the pit room/area should be smooth, non-absorbent, easily cleanable, and light colored. (They should be cleaned frequently due to the excessive amount of smoke normally generated by BBQ pits.)

### Supplemental Information/Suggestions

6. Most Mobile BBQ vendors install the pit with the firebox on the outside of the unit. If this is done, care should be taken to seal the space around the pit where it goes through the wall using materials that are heat and fire resistant.
7. BBQ pits are required to be cleaned at the Commissary, so that the grease and food residue will flow into a drain that goes to a grease trap.

**INSPECTION REPORT**

Your attention is respectfully called to the violations of the provisions of the following Code of Ordinances of the City of Houston, on the premises located at the address listed above.

The violations discovered at this facility include, but may not be limited to the violations listed on this report. Additional violations may be discovered during subsequent visits.

- 
- ☐ A permit is required for mobile food units (MFU) using any amount of LP Gas for commercial cooking. Any other mobile food units at the same property address will also be required to have their own individual permit. Permit fee is \$193.65, office located at 1002 Washington Avenue.
  - ☐ An **approved inspection sticker** valid for **12 months** must be displayed on all LP-Gas appliances (Stoves, Fryers, etc.) indicating that a licensed LP-Gas company has inspected the equipment. (Excluding LP gas cylinders). Present a valid receipt for gas inspection
  - ☐ All (MFU) shall carry a **(3A-40BC minimum)** Fire Extinguisher. In addition, a **Type K** portable extinguisher shall also be carried in the MFU when deep-fry cooking is used involving vegetable oils or animal oils. Both fire extinguishers shall have **current annual inspection date tags**.
  - ☐ **"No Smoking"** signs approved by the Fire Marshal shall be visible near propane containers. No Smoking signs shall be provided in **English and Spanish**.

- ☐ An approved ventilation system shall be installed over cooking equipment. Hoods shall be operated at the required rate of air movement. Classified grease filters shall be in place and cleaned as needed.
- ☐ All LP-gas containers (**empty or full**) shall be secured in an upright position in such a manner as not to fall over. All MFU shall be position in a manner that will reduce the exposure of the LP-Gas cylinder to vehicle impact. Do not park MFU with LP gas cylinders facing oncoming traffic. Always utilize available protection for LP gas cylinders such as fences or barricades.
- ☐ All (MFU) within the boundaries of the District of Limitations No.1 (Downtown) and No.2 (Medical Center) shall be LIMITED TO A 60 LB. LP- gas cylinder and operate on private property only.
- ☐ Only personnel licensed by the *RAILROAD COMMISSION' OF TEXAS* (Life Safety Bureau Standard 10, section 3 .4) shall perform connections for LP-gas appliances located within District Of Limitation No. 1 (Downtown) and District of Limitation No.2 (Medical Center).
- ☐ Refueling of generators shall be performed in an approved location not less than 20 feet from the mobile food units (MFU). Fuel shall be stored in UL or FM approved flammable liquid safety containers and in an approved location.
- ☐ The operator of a (MFU) that uses any amount of LP-gas to prepare food shall not operate such unit within **60 feet** of another mobile food unit, except, at festivals or events approved by the Fire Marshal.
